## CORRALLED

**Alleged Thieves Arrested This Afternoon—Charged With Horsebreaking**

**LOCKED UP TO AWAIT TRIAL**

**Henry Glass and Jim Murray Charged With Breaking Into Friedman's Tailor Shop.**

**STOLEN GOODS WERE FOUND**

Jim Murray and Henry, alias "Red" Glass, were arrested this afternoon about 3 o'clock by officers Smith, Harlan and Jones on a charge of breaking into the Friedman's tailor shop about the latter part of May, and stealing \$46 in money and some clothing.

The police had been working on the case for weeks, and found five bolts of the stolen goods at Murray's saloon on lower Court street, in a drawer. Peter Griffin, who is now in jail charged with grand larceny, will be arraigned as an accomplice. Murray has kept a saloon for some time and Glass was arrested in April for robbery, but was acquitted. He has served time in the Indiana penitentiary, having been a resident of Evansville.

The police say they have a clear case, and the prisoners will be charged with housebreaking and grand larceny.

**MAY RENEW THE CONFLICT.**

LONDON, Ky., July 20.—The Philopots and the Morris, members of the two clans which only a few days since met in battle array in the county, with such a bloody effect, are gathering in at Manchester for the examining trial set for tomorrow. This meeting of the clans is certain to provoke a conflict and is therefore greatly feared by many.

**ENDED HER LIFE.**

WINCHESTER, Ky., July 20.—Mrs. Kate Clark, one of the most prominent women of the Blue Grass section, suicided this morning. She shot herself in the breast with a pistol at the home of her brother-in-law, Dr. Clark, in this county. Mrs. Clark's husband was formerly superintendent of the Kentucky Midland railroad. Ill health was the cause of the act.

**JEFFERSON COUNTY TO ACT.**

LOUISVILLE, Ky., July 20.—An anti-Gebel meeting has been called to meet in the Library hall, this city, on the 25th inst, and all Democrats of the county who disapprove of the manner of Gebel's nomination are invited to be present. The belief is that the attendance will be a large one.

**DEWEY COMING.**

TRIESTE, France, July 20.—Admiral Dewey has arrived at this port. He was given a warm reception. He is feeling well and will attend a banquet arranged for tonight. He will carry here for a health certificate for himself and crew and then leave directly for the harbor of New York. He has as yet set no date for his arrival home.

**TO FIGHT A TRUST.**

LOUISVILLE, July 20.—The Martin company of Greenville, the well-known tobaccoists, have leased an immense plant here to start a large anti-trust plug tobacco factory. The company has much means and will go in for an earnest fight.

**MUCH LOSS OF LIFE.**

DALLAS, Texas, July 20.—A cloudburst in Childress and eight adjoining counties did widespread damage. It is feared there has been a large loss of life.

**POLICE IN CONTROL.**

NEW YORK, July 20.—The police are in control of the strike situation in New York and Brooklyn and there has as yet been no violation of consequence. There are not many cars moving however.

**SUNSTROKES.**

LONDON, Eng., July 20.—The hottest weather for years has been experienced here today. The rays have been fully one hundred sunstrokes and quite a number of them have resulted fatally. The heat has literally been almost unbearable.

**ALGER'S SUCCESSOR.**

WASHINGTON, July 20.—Ex-Secretary Alger will surrender his office Monday to Assistant Secretary McKeljohn, pending the appointment of his successor. Gen. John Wilson is the strongest tip for the office vacated.

Sue Blakely, colored, was arrested this afternoon on a charge of sending obscene matter through the mails to Annie Cannon, colored, who received an anonymous letter yesterday and one today. The language is about the worst Judge Sanders ever saw in print, and the woman will be prosecuted under the government laws.

## DIED OF HIS INJURIES.

**Fireman McCormick Finally Died at Caneyville.**

Fireman Fred A. McCormick, who was on duty when struck by a train at Caneyville, on the Louisville division of the Illinois Central, having an skull crushed, died yesterday at Caneyville, where he was taken after the accident.

He was 24 years old, and a brother to Road Superintendent McCormick, of Fulton. His mother resides in Kansas City.

The remains were interred in St. Louis cemetery, at Louisville.

**DEMOCRATS IN CHICAGO.**

**Not Believed Bryan Will Come to Kentucky to Settle the Bolt.**

CHICAGO, July 20.—It is not believed that Bryan will come to Kentucky to try to conciliate the Democrats to the Goebel nomination.

The Alge-Harrison fight has reached an acute stage. Bryan is trying to promote harmony by referring the matter to the national committee.

The committee has as yet transacted no business.

**A WASTED LIFE.**

**Annie Clark Has No One to Care for Her.**

Marshall Collins was this afternoon notified that Annie Clark, one of the oldest of the women who have for years past been denizens of West Court, is in a feeble condition, and that Madame Ida French, who has cared for her for several years past, does not longer feel able to do so.

The Clark woman is about 50 years of age and has been out there for about 20 years, if not longer. She has grown old in the locality, and now has no one to take care of her, and is a burden on those with whom she has associated for years.

Marshall Collins has notified County Judge Tully and will make an effort to have her sent to the poor house, where she can spend the remainder of her days. She is rapidly declining and had been cooking at the houses for the past several years for her board.

**LIVELY RUNAWAY.**

A team belonging to the Paducah Furniture company ran away near the N. C. & St. L. depot this morning and demolished a few bedsteads and partly damaged the wagon by striking it against a telephone post.

No one was injured and the runaway mules were stopped before they did any more damage than that mentioned above.

**THE TEACHERS.**

The teachers' institute reassembled this morning with a good attendance. The body soon got to work and studies interested them for several hours. The work of the institute is confined almost exclusively to pedagogy, but frequently other matters find their way into the work and the sessions are full of interest.

**PETITION IN BANKRUPTCY.**

Timoleon Leneave, of Cadiz, Trigg county, this morning filed his petition in voluntary bankruptcy in the U. S. courts here, liabilities amounting to \$820.

His attorney is Denny P. Smith, of Cadiz.

**MR. SULLIVAN IMPROVING.**

Mr. Sullivan, who was recently thrown out of a wagon and had concussion of the brain, is improving at his home in the Clark's river section. He was very ill at one time, and it was not thought would recover, but for several days past has been improving.

**PAY TRAIN ARRIVES.**

The Illinois Central pay train arrived this forenoon, and will finish paying off tonight and leave tomorrow for the Louisville division. Tonight and tomorrow and Saturday the stores will remain open.

**FINGERS MASHED OFF.**

Mr. O. S. Davis, of the N. C. & St. L., had two fingers on his right hand mashed off at the first joint yesterday by a heavy piece of timber falling on it. He was brought in last night and taken to the Redick Rivers infirmary, where he is resting easy.

**FEW PATIENTS.**

There are now but six or seven patients in the city hospital, and none of them are very ill. There is not much sickness reported in any part of town at present.

**DR. GRAVES BETTER.**

Dr. W. T. Graves, who has been confined to his bed for the past three months from three pistol wounds, is reported improving, and it is hoped will shortly be out.

The condition of Postmaster Hanberry, at Edysville, is this afternoon reported better, and unless he has a relapse will doubtless recover.

Place your insurance with Mrs. Burgauer.

## AFTER HIS WIFE

**John Hale Had a Hard Time Getting Her.**

**Will Cartwright Break Up the Furniture Because He Didn't Want to Move.**

John Hale, alias "Hawkeye," was arrested last night on a warrant charging him with creating a general disturbance at Fifth and Clay yesterday afternoon. John married a short time ago, and yesterday it seems he and his wife had a falling out and she left him and returned to the protecting parental roof. Hale went after her, and when he had taken her as far as the street, with more force than clothes, her sister went to the rescue and Brown gave her a beating, it is alleged. His wife was taken through the streets half clad, and no little excitement was created in the neighborhood.

Judge Sanders said the charge was quite a grave breach of the peace, and continued the case until tomorrow morning, fixing the bond of the defendant at \$50.

Will Cartwright, also colored, was charged with mistreating his wife and breaking up the furniture. She wanted to move and he didn't and he came to the court that he told her she could go if she wanted to, but to take what was her's and leave him what was his. The result was there was little left for either when the disturbance was over with. He was fined \$10 and costs.

**CAPTURED BY POSSE**

**James Sprague at Last in the Toils.**

It Took a Deputy and Nine Assistants—In Jail at Benton.

John Sprague, who cut Vernon Blewett near Ozon, Marsh County, was today captured near his home by Deputy Sheriff Reeves and nine assistants, which posse has been after him for some time.

Sprague had trouble with Blewett about three weeks ago over a horse, it seems. The men had not been the best of friends, and about three weeks ago met and after going along together for some little distance, Sprague having informed Blewett where his horses were, the latter met some one else and asked him. This seemed to anger Sprague, and he thought it a reflection on his word, and he asked Blewett if he thought he had lied about it. One word led to another until they got out of hearing, when they got into a fight and Sprague got Blewett down and cut him several times. He lingered for some time between life and death, and Sprague was immediately after the cutting captured by Sheriff Drafen, at Calvert City, but contrived to make his escape.

He remained in hiding until this morning, when he was captured after a chase near home and taken to Benton and placed in jail.

**NEEDS ATTENTION.**

If it is not some one's duty to look after Venice park it should be made so. The place is no credit to the city, but is now what it was at first and by many it would be if not properly cared for—a neighborhood pest. The place is not only filthy from trash but is a stock yard for cattle and loafing resort by day and night for noisy characters. The place is more objectionable now than it was before the city took charge of it and decided to make it a park and yet the city is responsible for its condition.

**AN OLD RESIDENT.**

Mr. James Riley, of Pikeville, Ala., who had been to Marshall and Graves county on a visit to relatives, was in the city yesterday on route home. He had not been in Paducah for 22 years, and was most cordially greeted by his many friends. He was at one time deputy circuit clerk under Mr. E. B. Jones, and made a popular one. He regretted that he had to make his stay in Paducah so brief.

**FIRST OF THE SEASON.**

Mr. W. Chesterfield, proprietor of the new canning factory, yesterday received the first load of the new crop of tomatoes, and is greatly pleased with them. His factory will not be running in full blast until the first of the month, although it will run before that time. Many car loads of the canned goods will be shipped during the next few months.

**STILL A MYSTERY.**

The mystery surrounding the disappearance of Miss Maud Stovall, of Graves county, has not been cleared, and her whereabouts are still unknown. It is not thought that she has met with foul play, but the general impression, as stated a few days ago, is that she left in a delicate condition.

—Five dollars will be paid for the pocket book, with contents, lost yesterday on North Sixth street near the Union depot. The name of the owner is in the purse.

## NEW TELEPHONES.

**Six Hundred Expected by the East Tennessee Company.**

Superintendent A. L. Joynes, of the East Tennessee Telephone company, stated this morning in regard to the delay in putting in the residence telephones ordered for several months ago, that the company was waiting for the new instruments, which are late expected.

There will be about 600 of them, and they will make about two car loads. They were expected some time ago, but have been delayed. As soon as they arrive they will be put in.

**BIG SHOW.**

**Wallace's Big Show Will Visit Paducah Soon.**

The big circus is coming. R. M. Harvey, press agent and local contractor for the Wallace circus, today arranged for the appearance of this big show here on Tuesday, August 8.

The Wallace shows are always good—but better this year than ever before, having been enlarged and reorganized with many new and novel features.

In speaking of the performance recently given at Cherties City, Iowa, the Daily X-Ray says:

The afternoon performance was presented before a full and happy audience who were wildly on enthusiastic ovation. There is an absence of sameness about the Wallace shows, every part of it is big, new, novel and artistic. Not a single thing on the bills was omitted, and when the magnificent exhibition ended the great throng filed slowly out, both to depart from a place which had provided them such a pleasant afternoon's entertainment.

**CASE DISMISSED.**

**And a Charge Preferred Against Levering—Emery's Court.**

Yesterday afternoon Justice Charles Emery tried Alex Bloodworth on a charge of using insulting language towards Barney Levering, a peddler. The evidence failed to sustain the charge and after court was over a counter warrant was issued before Justice Sheehan against Levering for using insulting language.

**AT THE PARK.**

Tonight the bill changes at La Belle park and the stock company will produce that old comedy drama, "A Father's Curse."

This bill is a very strong one, it has brought both tears and cheers from many an audience in the past few years and will be sure to please the most fastidious of the theater goers of Paducah. Between the acts Kid Kieffer, the celebrated back dancer will be seen in his song and dance turn.

**NEARING COMPETITION.**

The repairs and improvements of the county court house are nearing completion, and the carpenters are about through and are ready to abandon it to the painters. The old building has been greatly improved in appearance as well as utility, and when people visit it for the first time they will hardly know it.

**THROUGH MAYFIELD.**

**Maud Stovall Said to Have Gone Through Here Today.**

Miss Maud Stovall, who has been missing for several weeks, was seen today in company with a young man in Mayfield, but neither was arrested. It is said she had been to Indiana and was on her way back to Farmington, where she formerly lived.

## MAYOR EXPLAINS

**Tells How Storm Water Sewer Is to Be Paid For.**

**Also About the Entertainments That Have Been Paid For Without Appropriation.**

The Sun notes with pleasure that Mayor Leary, as a good, conscientious mayor should do, has seen the questions asked in yesterday's issue. They were asked with a view to pointing out the fact that the mayor's position on the census proposed to be taken of Paducah with a view of getting Paducah into cities of the second class, is contrary to positions he has taken in similar cases within a few weeks past.

The Sun has no fault to find, but seeks only to maintain its position in advancing the interests of Paducah, as it believes, in having her placed with the second class cities.

The explanation made by the mayor is as follows:

In justice to myself and criticism through the press concerning how recent matters were paid for, and how some others are to be paid for, permit me to say that the sewer at the corner of Twelfth street and Jefferson is being charged to street account.

The entertainment of visitors was paid out of a levy made for that purpose, though likely too small the present year, which can not be known until funds from other sources are all in, and this accounts pro rata thereof applied to it. With regard to the suit of appraisal and condemnation for wharfage, we have two accounts to charge this to—that of a purpose for costs of suits and that of wharfage. It was never intended to pay the purchase price the present fiscal year for the property, if in reach of the city's ability to purchase, but to make the appropriation in the next tax levy.

Our levy ordinance was written by the present circuit judge, was believed to be a sound document, in thorough conformity with the law of making tax levies, and was copied by me verbatim save the changes to purposes cash year and amounts, and from the contingent fund there is dedicated amounts to swell ratably all of the amounts specifically named in ratio to their respective amounts.

I trust the newspapers may be sufficiently wise to note this explanation. Very respectfully,

JAS. M. LANG.

The first statement, relative to the new storm water sewer, indicates that such an improvement could be paid for out of the street levy about as easily as the costs of taking a census can be paid for out of the Home of the Friendless account. In other words, the mayor states that the storm water sewer, which will cost not less than \$1,000, a well probably cost \$1,200, is to be paid for out of a levy that was only \$12,000 at the start, thus consuming one-tenth of it, when there was not near enough in it at the beginning of the year, and despite the fact that the storm water sewer is not a street improvement, and if it had to be built could much more consistently be paid for out of the sewerage, sanitary or the general public improvement account.

The advisability of expending one-tenth of a levy that was small on an improvement of this kind, is questionable, and shows, furthermore, that if a thing of that kind can be paid for out of the street levy, a census can be paid for out of most any other levy.

The explanation about the entertainment expenditure means that with \$100 in the entertainment fund, the city has already paid out \$700 or thereabout, when it had but \$100 to pay. This money has been paid from some fund, and the question is, which one? It couldn't have been paid out of the proper fund, for there wasn't that much by over \$600 in it. It is true that the mayor didn't know how much would be in the fund by the end of the year, but he knew that there wouldn't be enough to increase it six times and make it \$700. No one objects to the money having been paid out, for it was in a good cause, but the Sun is inclined to think that if \$500 or more could be paid out when there was no levy for it, the cost of a census could be done likewise.

As to the explanation of the river front condemnation, the mayor presumes that after the property had been condemned and the price fixed, the railroad company would wait until next year, when a special levy was made by a council that the mayor doesn't know whether would pay for it or make a levy for it at all or not. The pay for the appraisers might come under the head of "court costs," but probably their pay would not be court costs, but appraisers costs instead. They would be no part of any court, and would not be paid by any court.

Hence it appears more than ever that the mayor will have to abandon his position that there is no fund from which the census enumerators can be as legally paid, as many other things that have been paid in the past, notably, a storm water sewer that is not in the street, from the street account, and \$700 for entertainments, paid out of a \$100 fund levied for the purpose.

In ten years American life insurance companies have doubled their assets, the amount rising from \$657,128,642 in 1888 to \$1,344,901,198 in 1898.

THURSDAY, JULY 20, 1899.

It seems to be settled that England gets out of Com. Paul and from the Transvaal just what she wants. The talk of war between the two countries has therefore gone the way.

The yellow journalist correspondents in Manila, no doubt to make some show of earning their money if not to increase the sales of their papers, have reported that the facts were not being given the people in the official reports sent by General Otis. But right on top of this sensational statement comes one from Colonel Denby, a member of the Philippine commission who endorses Otis' reports and refutes the contents of the correspondents' round robin. Colonel Denby's report is quite satisfactory in other regards according to the members of the cabinet, but just how it is not stated.

When Judge Tarvin went to Ohio to see Mr. Bryan he came back to Kentucky loaded with a letter which was published to the regret of the machine Democrats. He is now at Chicago and again with the "Silver King," Mr. Bryan, and the Kentucky Democrats fear he will come home with another letter and fire it at them, hence they are very much disconcerted. The judge makes a racy letter writer and if he has cause he should speak again.

The Louisville Times now and then tells the truth, the whole truth and nothing but the truth. It did this when it said: "Confidence in both the present and the future of this country must be pretty well restored when one business firm contracts with another for \$15,000,000 worth of pressed steel plates per year for ten consecutive years, the material to be used in the construction of freight cars."

Memphis Commercial: "Colonel Watterson is sitting in the Goebel band wagon busily unconcerned of the fact that his Palmer and Buckner shirt-tail is out."

Long winded vetoes on matters which have been settled only give one a chance to air a very poor opinion and to spend a city's money at about \$15 per opinion. As there have been a number of such messages printed it is safe to say enough money has thus been wasted to pay at least one man's salary for taking the census of the city required by the ordinance to make Paducah a city of the second class.

There is going to be another howl in Democratic ranks soon. When the district committee named by the late convention begin to appoint the county committees then the people will see how much further the steals will be carried and what little importance more than to vote they are as partisans and this new kick will materialize. The Lexington Herald intimates as much in the following: "Under the Goebel system neither nominations nor elections are held by officers selected by the local communities. The county committees are not chosen by the precincts, but by the district committee, subject to the approval of the chairman, and these selections are not made for fitness or popularity, but to accomplish some personal end of those who control that chairman. The board of election commissioners is appointed by a state board elected by the legislature, and this board has unlimited power to remove without cause and at any moment. Against the disfranchisement of the Democrats in the various precincts the Montgomery Democrats enter this timely and impressive protest: Resolved, That we insist that, according to the true principles of Democracy the Democracy of each voting precinct have the right to and should select their members of the county committee and the members thereof to selected have the right to and should select their own chairman."

Commenting on this meeting the Louisville Post says: "The Mt. Sterling meeting, in character, in numbers and in its purposes, is a most important gathering. It comes to the Goebelites with a shock that must destroy their confidence in their own newspapers. The readers of the Evening Post know that there is within the Democratic party profound dissatisfaction with the Goebel conspiracy and the results, and they know this dissatisfaction is growing daily. The Goebel organs have been declaring that the Evening Post was systematically misrepresenting the situation, and that anti-Goebel men were difficult to find with a search warrant. Now even the Courier-Journal is forced to admit the growing revolt. When 600 Democrats a month after a state convention repudiate the actions of the convention and call for a conference looking to a new ticket it is plain that a political revolution is afoot. This is simply the first gun. Next week Warren county and then Jefferson will be heard from, and all the indications point to a new ticket that will represent the masses of the Democratic party as faithfully as the Goebel ticket represents the bosses."

The anti-annexation resolution in the Democratic platform is not only unjust to the patriots of the state but to the record of Kentucky in the past. The Lexington Herald, which recalls some history no doubt forgotten, if ever known by the delegates to the Louisville convention, says: "Kentucky has always been for annexation. George Rogers Clark conquered the northwest with

Kentucky pioneers, her statesmen gave Mr. Jefferson the opportunity and room to purchase the Louisiana territory; her soldiers and sailors won the blood of the Lewis and Clark expedition from Mexico, and today many sons of these sires are filled with the same hope of an ampler future and a wider arena for liberty and Christianity. And they stand by the country; their flag and the destiny of their republic."

Here is a political and historical fact that The Sun would refer to its Democratic opponents: "In New York when Judge Foster was ousted upon the Republican party by a fraud to which he was not a party, the Republicans were not dissatisfied and declared that the honor of the Republican party was at stake, and demanded the overwhelming defeat of Judge Foster—who was a pure and able gentleman—so that forever designing men would understand that dishonorable means in securing a nomination would also secure defeat." Perhaps if the Democrats in the state would follow the wise act of the New York Republicans and bounce Goebel before the election—when the people will certainly relegate him and his party support to the rear—it might be possible for them to save themselves the ignominy of the rebuke they are certain to get. But will they be so shrewd? Well hardly, for the boss is on the helm.

The Goebelites papers are silent as the grave on Captain Stone's last letter, in which he said his address was Kuttawa, etc. They are curiously reticent to see what the boss is going to do or say.

### MT. STERLING MUSS.

The Mt. Sterling Democratic gathering which protested against the action of the Louisville convention, as reported in The Sun Tuesday, was, as is stated by reliable correspondents, attended by some 600 Democrats from that place and county and the surrounding section. Among the number is said to have been some of the best known Democrats and most respected citizens of the section and their deliberation was calm, action being deferred to hear a full debate of the question.

The movement therefore was not one of protest alone but one of consequence. The resolution passed, which the Democratic press generally is ignoring, were as follows, and they speak for themselves:

Resolved, That we urge the Democracy of each county in the state to meet at once and appoint from one to three prudent, loyal Democrats to meet with those appointed by this meeting, at Lexington, Ky., on August 2, to consult and advise upon the propriety of calling a convention of the Democracy of the state to nominate Democratic candidates to fill the state offices at the election next November, with the power to call such convention and to name the time and place, outside of Louisville, for holding the same, and to name a temporary chairman to organize said convention and to appoint delegates to the next convention, and to provide for all the organization necessary and proper for holding the same.

Resolved, That we invite prudent, discreet and temperate Democrats in each county to write to the party press in Louisville the extent of the dissatisfaction to the fraudulent ticket in their respective counties, comparing it with the vote for Shakespeare, for clerk of the appellate court and to this furnish to the meeting at Lexington, on August 2, 1899, data on which to meet and appoint from one to three prudent, loyal Democrats to meet with those appointed by this meeting, at Lexington, Ky., on August 2, to consult and advise upon the propriety of calling a convention of the Democracy of the state to nominate Democratic candidates to fill the state offices at the election next November, with the power to call such convention and to name the time and place, outside of Louisville, for holding the same, and to name a temporary chairman to organize said convention and to appoint delegates to the next convention, and to provide for all the organization necessary and proper for holding the same.

Resolved, That we insist that, according to the true principles of Democracy, the Democrats of each voting precinct have the right to and should select their members of the county committee and the members thereof to selected have the right to and should select their own chairman. And we urge them to proceed to do so, notwithstanding the fact a resolution to this effect reported to the state convention was suppressed by order of Senator Wm. Goebel.

We hereby appoint M. S. Tyler, S. S. Priest, H. B. Kinnoy, Jas. R. Shroff and Thos. Turner to represent us in the meeting at Lexington above mentioned. We request the Democratic press of this city and of the state to publish the proceedings of this mass meeting.

Commenting on this meeting the Louisville Post says: "The Mt. Sterling meeting, in character, in numbers and in its purposes, is a most important gathering. It comes to the Goebelites with a shock that must destroy their confidence in their own newspapers. The readers of the Evening Post know that there is within the Democratic party profound dissatisfaction with the Goebel conspiracy and the results, and they know this dissatisfaction is growing daily. The anti-annexation resolution in the Democratic platform is not only unjust to the patriots of the state but to the record of Kentucky in the past. The Lexington Herald, which recalls some history no doubt forgotten, if ever known by the delegates to the Louisville convention, says: "Kentucky has always been for annexation. George Rogers Clark conquered the northwest with

them, and of Mr. Goebel, for they will attract at once and forcibly—the attention of all citizens, and will give a profound and increasing interest. This meeting has neither been ignored, sneered down or denigrated with success. The men, whose names are given, stand too high both as gentlemen and Democrats to permit their statements to be ignored or their recommendations to be laughed at. The recommendations made by this meeting will be taken up in many of the counties; in many, of course, no one can forget. The time fixed is somewhat short—but short, we apprehend, to obtain a general response—too short to have a large meeting here upon August 2. The state in fact, we have 119 counties; it takes time to make organization and it is only two weeks from tomorrow. But action will be taken in enough counties for the Lexington meeting to take further steps."

BOWLING GREEN'S KICK.  
The petitions circulated at Bowling Green and in Warren county and so largely signed by the protesting Democrats of the county named—something like one thousand putting their names to the papers—read as follows: The Sun prints the petition because no Democratic paper in this section seems to have independence enough to give their readers the news as it is found: "Whereas, The convention called by the regularly constituted authorities of the Democratic party was perverted from its true purpose by the arbitrary unsavory of delegates by fraud and corrupt bargains, and by unjust and unprecedented acts of chairman Goebel; and, Whereas, In the opinion of Democrats of Kentucky, there has been no ticket nominated entitled to their support, now, we, the undersigned Democrats of Warren county, hereby call a mass meeting, to be held on Monday, July 24, 1899, at 1 o'clock p. m., at the courthouse in Bowling Green, to take steps for the nomination of a true Democratic ticket, and that effect shall be given to the time-honored principle of Democracy that the will of the majority of the people shall rule, and that they shall not be compelled to submit to the arbitrary rule of accidental chairmen of committees or conventions."

Sandy Herald: "How do be! I don't claim to think there is little or no disaffection in the ranks of the party, even as little follows of the press cannot understand. The disaffection is a great deal more widespread than in the Harlan county campaign."

Legion County News: "Senator R. C. Burn is reported as saying that he would count on the fingers of one hand the Democrats in his county that were kicking against Goebel. When the 'King of Kenton' gets through with him, Joseph will have another name to add to his list."

### THE LATEST.

The Black Jack gang of robbers is terrorizing Texas and the Southwest. In spite of its long stay on the rocks the Park has been floated and in due time will resume her swift voyages across the Atlantic. She has had more hairbreadth escapes than any other ocean greyhound. Russia's order for 180,000 tons of American steel rails represents a \$5,000,000 transaction, and it is said that this country will supply \$20,000,000 worth of ordnance for the czar's armies. Russia is looming up rapidly as a customer. A large idea in forestry is to make a government park of 7,000,000 acres of land in Northern Minnesota at the headwaters of the Mississippi river. There are 1100 lakes in that region, which is the continental divide for the waters of the St. Lawrence, the Mississippi and Hudson Bay, with an elevation of nearly 1500 feet above the sea. In Manila, P. I., there have been terrific rains here during the past two days. In consequence it has been necessary to use boats in moving about the streets, and the whole country is flooded.

### TO THE POINT.

Somerset Paragon: "Goebel put his blacklegging on the ticket as a snarl bait for the confederate soldier, but his brother the editor of the Lexington Daily Herald, also an ex-confederate, refuses to support any such ticket."

Louisville Post: "Never has there been in any state a campaign that so defied the public, outraged party precedent and violated the first principles of justice as the Goebel campaign prior to the convention and since."

Lexington Herald: "There are many Democrats who condemn the trade between Mr. Goebel and Captain Stone as a crime against honest dealing and against the party, and who would not have voted for Captain Stone if he had received the nomination by virtue of this bargain. These Democrats argue that the party cannot have the right to select delegates; that a trade between candidates for nomination by which delegates legally chosen are unelected and persons not elected or improperly chosen is a crime against honesty, a crime against the private members of the party, a crime against good government, and ought not to be condoned by electing a nominee chosen by virtue of such trade. As the history of the negotiations, trades and conduct during that convention becomes more full and better understood, the number of these Democrats will most probably increase rather than diminish. It will daily become more apparent that Mr. Goebel is not the Democratic nominee and not entitled to Democratic votes as nominee. This class of Democrats is also composed of men who do not seek office, who are not noisy about conventions, who do not walk in procession, but who do vote."

Somerset Paragon: "No man on the Goeb of the Republican state convention charged that it was dominated and ruled by 'cut throats and assassins.'"

Eikon Progress: "The Progress takes no stock in all this hue and cry of some people about railroads and exorbitant. The railroads of this country are a business institution, operating under the same laws as other public institutions in the state, and are amenable for their conduct. But to hog, abuse and forever drag in order to prejudice, deserves no consideration from a thinking, sensible, liberty-loving people. Let our railroads pass upon their merits, privileges and liabilities, and therefore, as they do, help foster the great material growth of our commonwealth."

Louisville Post: "Mr. Goebel may well expect to change the issue, and drag the L. and N. into the fight. That is a matter between him and it. The Courier-Journal joins Goebel in his war on the L. and N.; the L. and N. can bring both Goebel and Halleman to their knees without much trouble. But the people are not to be diverted from the issue, political fraud, forced into the campaign by Goebel himself. The people intend to vote; they intend to vote against Goebel, and they intend to have their votes counted, if they have to go to the polls armed with shotguns. Goebel's reign of terror is over."

Washington Post: "The Hon. Bill Goebel overlooked an important fact when he neglected to elect himself governor of Kentucky when he had the legislature in session."

San Antonio Post: "Democratic candidate Goebel of Kentucky enjoys a marked advantage in the gubernatorial race in the fact that he has 'killed his man.' This is a species of executive ability that counts in Kentucky."

Russellville News: "Centralization of power is the cardinal principle of Goebism, and all steps taken by his committees will be in that direction. The

people are not 'in it' with the Goebel machine crowd."

Evansville Journal: "Some Democrats in Kentucky are whining about their courage, while others are whining to call out the dogs of war."

Kansas City Journal: "Mr. Goebel's Kentucky election law may be as famous as it is painted, but we doubt if it surpasses in partisan unfairness the election law which the Missouri legislature inflicted on Kansas City. The motive in both cases was the same, however—the theft of elections."

Georgetown Sentinel: "The Goebel election bill records in advance not the will of the people, but the will of Goebel. If we are to have in Kentucky a government of the people by the people, Goebel must be beaten. Goebel's force bill repeated and Goebism destroyed, root and branch."

Livingstone Outlook: "Dispatches from Boyd county to Goebel papers ask like there is no disaffection there. The truth is, Goebel will be severely knifed by Boyd county Democrats, else people who live in Catlettsburg and Ashland can't believe the evidence that is given daily around here."

Sandy Herald: "How do be! I don't claim to think there is little or no disaffection in the ranks of the party, even as little follows of the press cannot understand. The disaffection is a great deal more widespread than in the Harlan county campaign."

Legion County News: "Senator R. C. Burn is reported as saying that he would count on the fingers of one hand the Democrats in his county that were kicking against Goebel. When the 'King of Kenton' gets through with him, Joseph will have another name to add to his list."

Several Ordinances Considered  
at Last Night's Session

The Mayor Read an Explanation  
Three Absentees—O. H. R.

The council met in called session  
last night with Councilmen Jones,  
Yeiser and Robertson absent.

An amendment to the license ordi-  
nance was read, fixing circus license  
at \$50 for circuses charging 50 cents;  
\$25 for those charging 25 cents, and  
\$10 for those charging 10 cents. The  
city clerk read a report on the pay-  
ment of \$100 to the city for the  
purchase of a new fire engine, which  
was read, and the amendment was given  
first passage.

An amendment to the ordinance to  
approve Eleventh street from Madison  
to Clay was given first passage.

The city bought some property from  
Mrs. Robson for opening the street,  
and \$600 was allowed her when the  
deed is delivered.

An ordinance to improve Elizabeth  
street from Munn's store to the pro-  
posed new wharf was given first pas-  
sage. The city will pay for the im-  
provement on the North side of the  
street.

J. W. Overstreet complained through a  
communication that work on the  
big storm water sewer from B. C. way  
to Jefferson street, near T. C. fifth,  
is progressing slowly, and the street  
about his premises is being obstructed.  
City engineer explained that the  
delay was occasioned by a scarcity of  
bricks.

The communication was received  
and filed.

Mayor Lang read an unofficial  
document explaining how about \$700  
has been expended from the entertain-  
ment fund when there wasn't but  
\$100 left to start with.

The council adjourned.

GRAND OPENING.

The Epworth League's Holding  
Biggest Rally at Indianapolis.

INDIANAPOLIS, Ind., July 20.—The  
Fourth international conference of  
the Epworth Leagues held fair to out-  
do all of the previous gatherings of the  
great organization, both as to the num-  
ber of delegates and visitors in at-  
tendance and the enthusiasm shown  
in the opening rallies. All sections  
of this country and of Canada are  
represented in the hosts of young peo-  
ple who throng the streets and public  
places of Indiana's capital today.

Outside the 25,000 delegates there is  
almost as many visitors with creden-  
tials, the latter including several of  
prominent divines and laymen of the  
Methodist church who figure in the  
list of speakers. Headquarters have  
been opened for all of the various  
state and provincial delegations and  
for the conference departments. Re-  
sults of these departments are ar-  
ranged in addition to the stated pro-  
gram. Washington street, Pennsylv-  
ania street and other leading thorough-  
fares of the downtown district are  
gay with flags and banners bearing  
the Maltese cross and the familiar  
motto, "Look Up, Lift Up."

The conference formally opened at  
2:30 this afternoon with simultaneous  
rallies in the big tent in the court-  
house yard, and in Tenth street hall,  
just across the street. Addresses of  
welcome are to be delivered by Gov-  
ernor Mount, Mayor Thomas A. Taggart,  
and by representatives of the  
Methodist of Indianapolis. Fraternal  
responses will be given by ex-Con-  
gressman J. Frank Hanley, of In-  
dianapolis, Bishop W. X. Knobe, of In-  
dianapolis, the Rev. A. C. Gorman, of Toron-  
to, the Rev. G. F. Hunt, of Halifax,  
Bishop John F. Hurst, of Washington,  
and Bishop O. P. Fitzgerald, of Nash-  
ville.

While speeches and song occupy the  
three-days' sessions so far as the  
mass of delegates is concerned busi-  
ness of an important character will  
receive attention at the hands of the  
board of control.

Taking into consideration the fact  
that the Epworth League as an organi-  
zation has had but a decade of ex-  
istence the showing made at the pre-  
sent conference is little less than mar-  
velous. The organization was given  
birth at a conference of young Meth-  
odists held in Cleveland in 1899.  
Before the Cleveland session numerous  
societies existed in the Methodist  
church north, and it was at this con-  
ference that a majority of them united  
and started the big organization.

The Methodist Church South also en-  
tered the new movement with en-  
thusiasm, and at Memphis in 1899  
organized the first branch. More  
than 25,000 local chapters have been  
organized and the aggregate mem-  
bership now approaches the million  
mark.

GRAND OPENING.

The Epworth League's Holding  
Biggest Rally at Indianapolis.

INDIANAPOLIS, Ind., July 20.—The  
Fourth international conference of  
the Epworth Leagues held fair to out-  
do all of the previous gatherings of the  
great organization, both as to the num-  
ber of delegates and visitors in at-  
tendance and the enthusiasm shown  
in the opening rallies. All sections  
of this country and of Canada are  
represented in the hosts of young peo-  
ple who throng the streets and public  
places of Indiana's capital today.

Outside the 25,000 delegates there is  
almost as many visitors with creden-  
tials, the latter including several of  
prominent divines and laymen of the  
Methodist church who figure in the  
list of speakers. Headquarters have  
been opened for all of the various  
state and provincial delegations and  
for the conference departments. Re-  
sults of these departments are ar-  
ranged in addition to the stated pro-  
gram. Washington street, Pennsylv-  
ania street and other leading thorough-  
fares of the downtown district are  
gay with flags and banners bearing  
the Maltese cross and the familiar  
motto, "Look Up, Lift Up."

The conference formally opened at  
2:30 this afternoon with simultaneous  
rallies in the big tent in the court-  
house yard, and in Tenth street hall,  
just across the street. Addresses of  
welcome are to be delivered by Gov-  
ernor Mount, Mayor Thomas A. Taggart,  
and by representatives of the  
Methodist of Indianapolis. Fraternal  
responses will be given by ex-Con-  
gressman J. Frank Hanley, of In-  
dianapolis, Bishop W. X. Knobe, of In-  
dianapolis, the Rev. A. C. Gorman, of Toron-  
to, the Rev. G. F. Hunt, of Halifax,  
Bishop John F. Hurst, of Washington,  
and Bishop O. P. Fitzgerald, of Nash-  
ville.

While speeches and song occupy the  
three-days' sessions so far as the  
mass of delegates is concerned busi-  
ness of an important character will  
receive attention at the hands of the  
board of control.

Taking into consideration the fact  
that the Epworth League as an organi-  
zation has had but a decade of ex-  
istence the showing made at the pre-  
sent conference is little less than mar-  
velous. The organization was given  
birth at a conference of young Meth-  
odists held in Cleveland in 1899.  
Before the Cleveland session numerous  
societies existed in the Methodist  
church north, and it was at this con-  
ference that a majority of them united  
and started the big organization.

The Methodist Church South also en-  
tered the new movement with en-  
thusiasm, and at Memphis in 1899  
organized the first branch. More  
than 25,000 local chapters have been  
organized and the aggregate mem-  
bership now approaches the million  
mark.

Memphis Commercial-Appel: "Senator Tillman says the Philippine war was forced by the trusts, so as to secure a large standing army with which to overawe and oppress labor. When we see Carnegie and his associates, who represent the trusts, who are the trusts, fighting teeth and tongue against the Philippine war, Tillman's terrific vapors will become the more absurd."

**Woman's Life in India.**  
Everyday life for the English woman in Calcutta is said to pass about as follows: About 7 o'clock in the morning comes the light bread-and-butter breakfast, followed by a drive or a ride. When she returns she makes one of the changes of dress with which the Anglo-Indian day is punctuated, then has a real breakfast at 10. After this comes a long morning of idleness, idling before 2 o'clock, the hour for tiffin. Calls are made between 12 o'clock and 2, for after tiffin Calcutta goes to sleep. Four o'clock tea is the signal for them to be up again and dress for the afternoon drive. At 5 o'clock everybody dines, and then follow cards, dancing, billiards or the theater.

**Disappointed.**  
"How do you like the European costume you have adopted?" Inquired a friend. "It's a great disappointment," replied the king of Korea. "What led me to adopt it was the impression I had gained from my extensive reading that it was considered funny not to pay for this style of garments. These Seoul tailors haven't any sense of humor."—Washington Star.

**Irish Clanishness.**  
The Irish are clanish—that is, they are devoted to those of their own blood. Thousands of dollars are sent every month by Irish servant girls in the United States to the homes of their families in Ireland. A story told in Sir Charles Gavan Duffy's "My Life in Two Hemispheres" shows the intensity of Irish clanishness. It was told to Sir Charles by a kinsman, a gray-haired landholder in Buenos Ayres. "I was present," said he, "a boy in my first breeches, when my elder brother was sharply called for by our father, a strict disciplinarian. Mike, being my pocket knife, 'What shall I do?' 'Take mine,' said his cousin, John Duffy. 'Tis the same color.' 'No, no,' muttered my brother. The blade of the knife was broken, and father will know the difference at a glance. John, without a word, put the blade of his knife under his heel and broke it off. We do not approve the morality of this transaction; but it was a lesson. It was in his spirit. It illustrates the 'clanish' feeling that has inspired many an Irishman to die for his kinsman."

**Taking No Risks.**  
A Columbia Heights woman, who is vouched for by the Washington Post as exceedingly fond of animals, had an odd experience with one—or two—while waiting at a city railway station for a belated train. In the seat next to her sat a small dog, who evidently belonged to an elaborately dressed woman in the next seat but one. He was a friendly little dog, and looked up at the Columbia Heights woman with a wag of his tail, which was an outward and visible sign of a desire to make friends. She leaned forward and patted him on the head. His elaborately dressed mistress immediately reached out and took her precious pet into her lap. "Pardon me," said she, apologetically, "but my dog is not allowed to kiss strangers."

**Earliest Type of Bicycle.**  
Despite all the claims of the French and English historians, the honor of producing the first vehicle of a nature similar to the modern bicycle belongs to Germany. Away back in 1819 a toy-maker in Nuremberg, named Hugo Hauthaus, made a two-wheeled vehicle, with which a person could propel himself rapidly along the roads. Ten years after these contrivances were in common use in Nuremberg.

**Was He Sympathetic?**  
The marriage in Washington on the 18th inst. of Mrs. Marion Treut McKay and Mr. Albert Von Breuning develops an unusual incident. The most valuable wedding gift was from the ex-husband of the bride, Gordon McKay, and came in the shape of \$100,000 worth of securities. It is exceedingly doubtful in what way Mr. McKay means this action shall be taken. He may, from past experience, nourish a sad sympathy for the groom, and intend that the gift shall go eventually to him. Or he may simply desire to show that he holds no malice to his divorced wife, and will gladly see her happy even if he himself is not the man charged with the procurement of that rare article, Mr. Von Breuning, it is understood, has relinquished all claim to his wife's alimony of \$25,000 per year, and it may be that the grateful Mr. McKay thus evinces his appreciation of such a generous and manly action. Whatever be the true inwardness of the situation, or the motive moving this most unusual ex-husband, he is to be commended on setting those in like predicament a worthy example. The ordinance of divorce is bad enough, but it appears to have its advantages after all.
